CardConnect and Moblico work together to offer *you* the best savings

Introducing revolutionary solutions aimed at increasing communication and profitability for members. Now, with the help of CardConnect AIP and Moblico's capabilities, members can effortlessly manage transactions and mobile payment collections. This approach empowers you to navigate these aspects of your business efficiently, all with a simple tap of a finger.

CardConnect AIP: Members will save up to 40% on processing fees with CardConnect AIP. CardConnect AIP's industry-leading processors are fast, easy to use, and ensure the security of your customers' data with P2PE and Tokenization. Periodic audits and Account Reviews help ensure that your savings remain on the right track.

Moblico: Moblico helps keep members connected and up to date with the latest in Mobile Business Messaging. With easily accessible tools and resources, members can engage with customers, communicate with distributors, and conduct commerce anytime, anywhere. Through Moblico, members can boost response rates by as much as 20%, leading to a decrease in call abandonment.
