

November Newsletter Content:

Beyond the Brand

This November, we're highlighting two of Savings4Members' most recognized vendor programs—ADP and T-Mobile. How well do you know them? We'll explore how these companies offer more than just their well-known services. Think of it as putting together a puzzle, revealing how these programs come together to support your business success.

Did you know that ADP, the payroll powerhouse behind thousands of businesses, offers more than just paycheck processing? Behind the scenes, ADP helps businesses streamline their entire HR operations, including health insurance, benefits administration, 401(k) plans, and talent management. Through Savings4Members, ADP provides valuable insights and analytics, allowing companies to optimize payroll, benefits, and retirement offerings, improving both efficiency and employee satisfaction.

T-Mobile plays a much larger role in your business than just providing reliable communication. Through Savings4Members, members gain access to customizable plans that include fleet and asset management, mobile point-of-sale solutions, and business internet. With mobile security features, team management tools, and priority support, T-Mobile ensures seamless operations. Plus, members can access Wi-Fi on planes, keeping teams connected wherever they go, all tailored to fit member's needs.
